Hello,

The Massachusetts Conservation Alliance (MCA), made up of the active Massachusetts Sportsman's Leagues and Organizations, is asking for your support. The MCA has been working on behalf of the Massachusetts sporting community to bring awareness to legislation from Beacon Hill and regulations from MassWildlife. We are collectively asking for your support in amplifying the voices of the sporting community across the state by posting these enclosed posters at your club and related vendors that may want to help.

Together, we have an opportunity to push legislation important to the sporting community through engagement of our members and of this professional lobbying firm. For any questions or to request a meeting of an MCA representative, please feel free to reach out to Paul Johnson or Joseph Afonso.

Thank you for your time and continued support of the sporting community in our state,

"United We Stand"- Mike Veloza

Joseph Afonso
Co-Chairman, Mass Conservation Alliance
President, Worcester County League
617-939-1605

Paul Johnson
Co-Chairman, Mass Conservation Alliance
President, Plymouth County League
508-241-2333

In 2017, the Mass Conservation Alliance (MCA) was reformed with the idea of increasing communication and collaboration across the sportsman's organizations across Massachusetts. Our organization continues to grow, working with new partners that share our support for hunting, fishing, conservation and utilization of our resources. Our meetings are typically held quarterly; however they may be held more frequently as the membership requests.

The primary focus of the MCA is to work on legislation benefiting the sportsmen and sportswomen in Massachusetts. To achieve that goal, the MCA believes it is of the utmost importance to speak with one voice, showing our legislators the drive and enthusiasm for the topics supported by the voters.
